CAREER OBJECTIVE

Enthusiastic Computer Science graduate with practical knowledge of Java, Spring Boot, and SQL, seeking a Java Developer position to build scalable, cloud-ready applications. Skilled in Git/GitHub for collaborative development, Docker for containerization, and AWS for deployment, with a strong eagerness to learn and deliver high-quality software solutions

EDUCATION

- Nehru Institute of Technology (Autonomous) – Coimbatore Sep 2023 –May 2027
Bachelor of Engineering (B.E) in Computer Science Engineering
CGPA: 7.9
 - Bharathiyar Matriculation Higher Secondary School – Attur May 2023 HSC –
83.5%
-

WORK EXPERIENCE

CODEC TECHNOLOGIES (Internship) -Remote Mar 2026-May 2026

- Gained hands-on understanding of Spring Boot framework for building backend applications and REST APIs.
 - Improved problem-solving and self-learning skills by working independently in a remote environment.
-

TECHNICAL SKILLS

- Languages : Java, Javascript
- Framework : SpringBoot, Spring Security, Hibernate
- Web Technologies : Html, Css
- Services : AWS EC2, AWS S3, AWS Elastic Beanstalk
- Database : MySQL, Postgresql
- Containerization : Docker
- Version Control : Git and Github
- Tools & IDE : Maven, Postman, VS Code, IntelliJ Idea

PROJECTS

1.Job Portal Backend Application (Java, Spring Boot, Spring Security, SQL)

- Developed a backend application for a job portal system enabling CRUD operations for job postings, candidates, and employer profiles.
- Designed and implemented RESTful APIs using Spring Boot to handle job creation, updates, application submissions, and deletions.
- Designed relational database schema using SQL to manage entities like Users, Jobs, and Applications with proper relationships (one-to-many, many-to-many).

2. Student Management System (Java, Spring Boot, SQL, Spring Security)

- Built RESTful APIs using Spring Boot to add, update, delete, and fetch student details like name, course, marks, and attendance.
- Designed and implemented a relational database using SQL to store student, course, and enrollment information.
- Used JPA/Hibernate for seamless interaction between the Java application and the database.
- Implemented basic authentication using Spring Security to restrict access to authorized users only.

CERTIFICATIONS

- | | |
|---|-----------|
| • Participated in Pinnacle Hacks 2025, a 24-hour AI-focused hackathon conducted at Nehru Institute of Technology, Coimbatore. | Sep-2025 |
| • Java (Basic) Certification – HackerRank | Oct- 2025 |
| • SQL(Basic) Certification – HackerRank | Apr-2026 |

ACHIEVEMENTS

- | | |
|---|----------|
| • Achieved 5 (Java) on HackerRank, demonstrating strong Problem solving and coding skills. | Sep-2025 |
| • Earned 100 Days LeetCode Badge for maintaining consistent daily Problem solving practice. | Feb 2026 |

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge and belief. I am confident that my skills and dedication will contribute positively to any work assigned to me.
